49 sqm

first floor

Construction & Materials

Structure:

- Galvanized steel structure
- Treated with primer made in Italy for corrosion protection and long-term durability

External Cladding:

- First layer: Galvanized distilled sheets with primer coating
- Final finish: PU Marine paint
- Stone cladding applied on selected façades for a natural, premium appearance

Roof:

- Tiled roof
- Designed for weather resistance and thermal performance

Insulation System:

- Thermal insulation: Foam insulation layer for effective temperature control
- Acoustic insulation: Rockwool layer for sound reduction

Interior Finishes

Walls:

- Gypsum board finishing
- Painted with semi-kaoutsouk paint

Flooring:

- Base layer: Cement board for moisture insulation
- Finish: Ceramic tiles
- Tile origin: Spain or Italy, based on selected color and style

Outdoor Features:

- Two upper-floor balconies
- Natural integration with the surrounding landscape
